The GGKP is a global partnership of international organisations, research institutes, and experts focused on promoting a green economy transition by:

1. Identifying major knowledge gaps in green growth theory, policy, and practice and addressing these gaps by promoting collaboration and coordinated research; and
2. Using world-class knowledge management and communication tools to provide practitioners, policymakers, and other experts with opportunities to access, share, and utilize green growth policy analysis, guidance, lessons learned, information, and data.
