

PLATAFORMA REGIONAL

# LEDS LAC

ESTRATEGIAS DE DESARROLLO BAJO EN EMISIONES

*LEDS LAC Secretariat is operated by INCAE and Libélula, with support from the Inter American Development Bank*

# OUR VISION

## *What we envision*

A climate compatible **development** in LAC

## **What we strive to be**

A community of practice that drives **transformation**

# *We empower transformational leaders by:*

**Creating a meeting space** for a regional network of governments, cooperation agencies, non-governmental organizations, academia and the private sector, which are working to develop and implement LEDS, in order

Open opportunities for **coordination, collaboration and synergies.**

**Develop and strengthen capacities and competences,** promoting learning and exchange of information and best practices

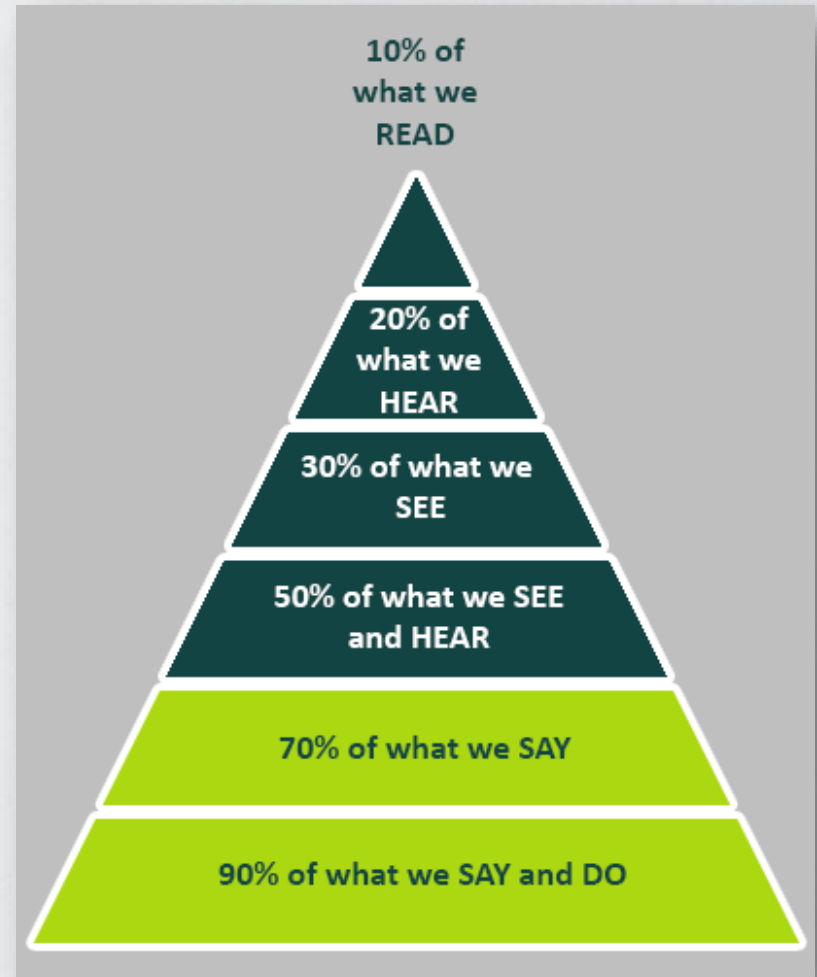

**Disseminate,** tools, case studies, methodologies and other mechanisms for LEDS design and implementation

***HOW WE DO IT?***

# PRINCIPLES OF OPERATION

- **Experience:** All members are “experts”
- **People-oriented:** Solutions will be delivered by people
- **Bridges:** We need connections for complex solutions
- **No duplication of efforts:** Instead, promote articulation and interaction of what exists or is being planned
- **Active learning:** Discussions, presentation, simulations, real experience

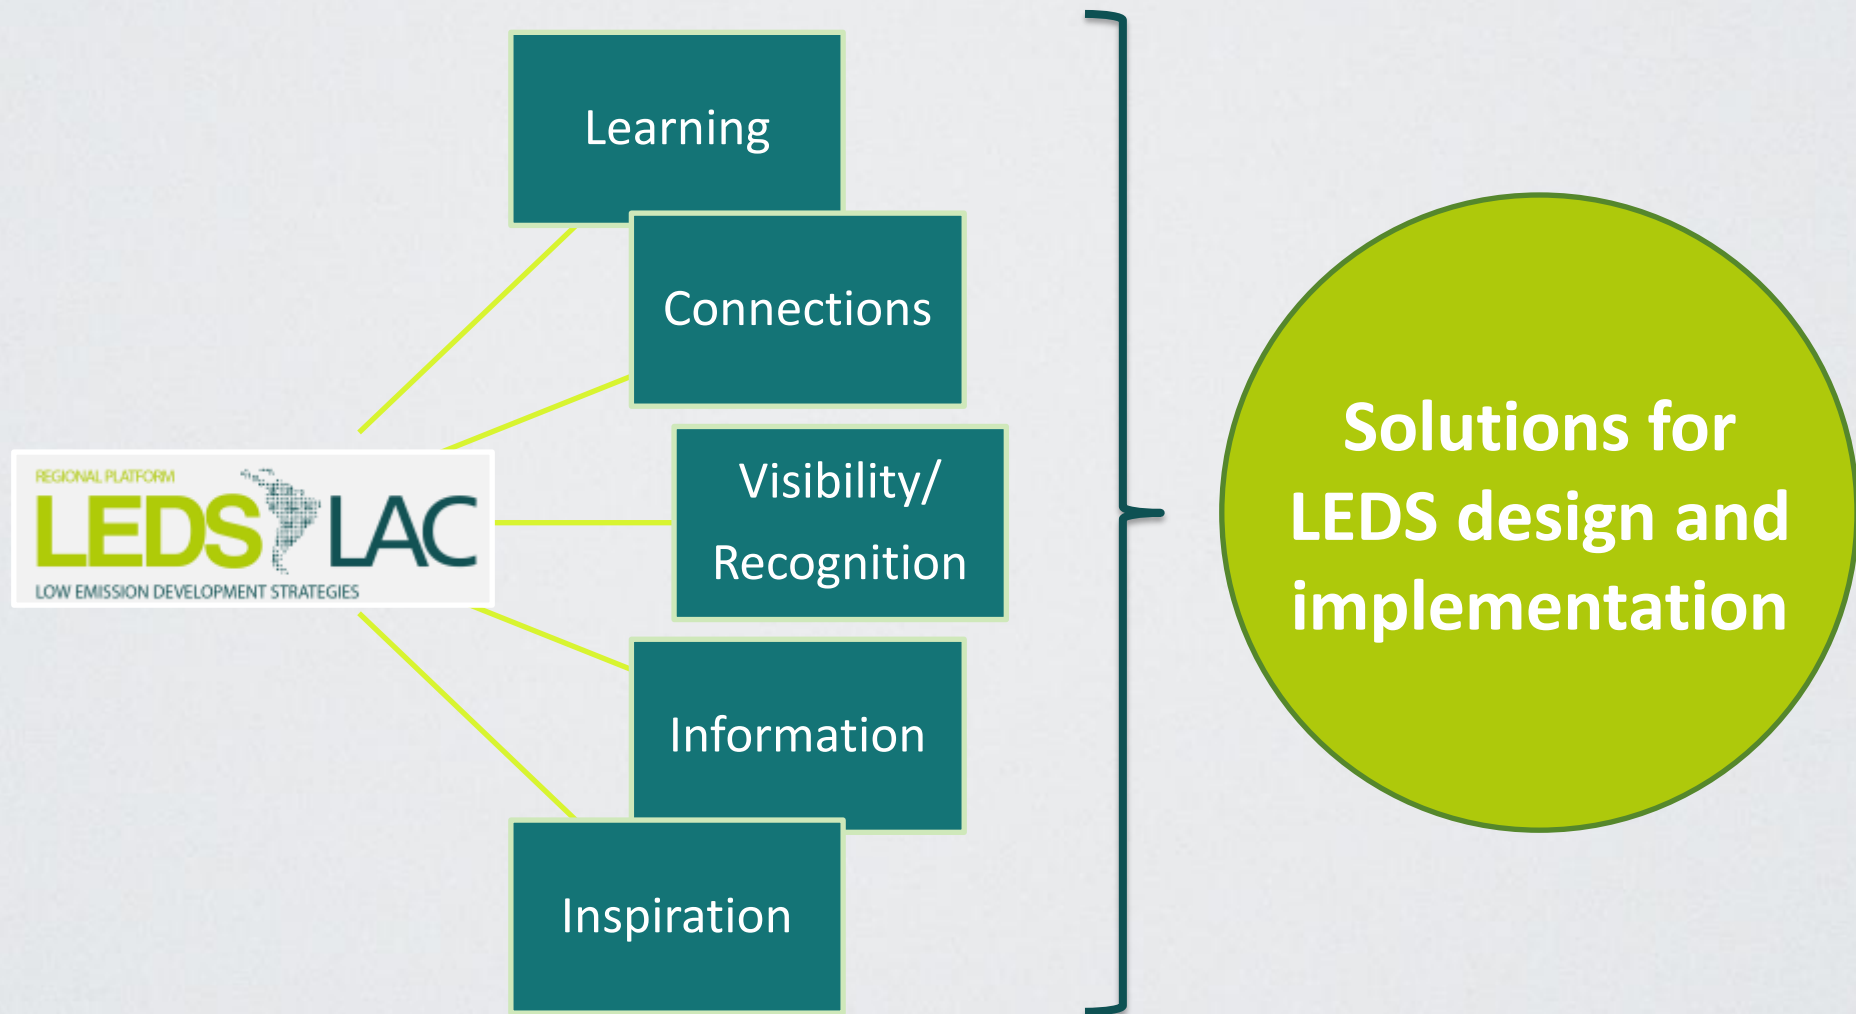

After 2 weeks we tend to remember...

## ***OUR STRATEGIES***

- **Distributed leadership:** Identify country leaders, followers and practices
- **Target:** Leaders/early adopters and followers/secondary adopters
- **South-south cooperation:** Among LAC and other regions (link with Asia and African Platforms)
- **Provide spaces:** For learning, cooperation and networking

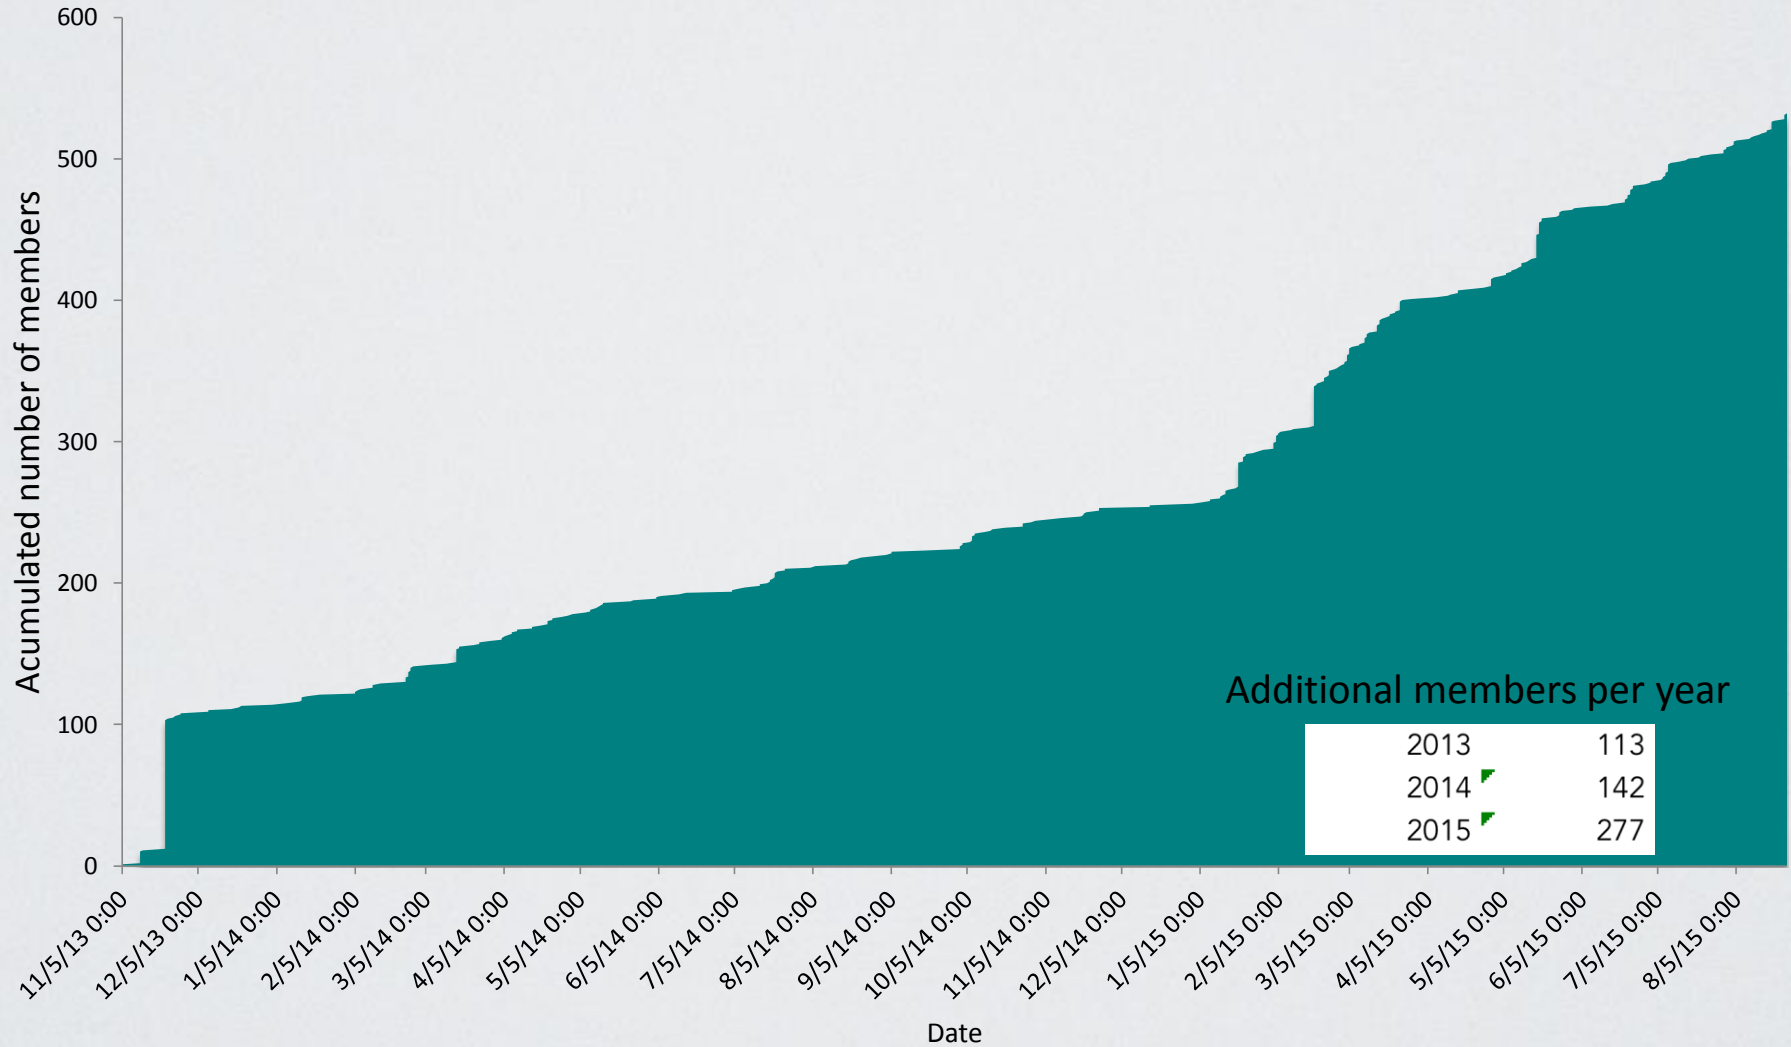

# WHAT DO MEMBERS GET FROM LEDS LAC?
